Old Rose Juniors Made Good

Keeping strictly to agreement, Capt. Norman Parker and his old rose Juniors furnished a supper to the mile green contingent under Capt. Paul Nevers in the Congregational church vestry Wednesday evening. This marked the final lap of a contest that has been carried on in the Juniors' Endeavor Society for several months with excellent results. About thirty members gathered about the tables at 6:30 where frankfurts, rolls, sandwiches, cakes, whipped cream pies and cocoa were served. Norman Parker was the master of ceremonies, being assisted by the young ladies of his division who acted as waitresses. Mrs. Herman Bartlett gave several humorous readings which were enthusiastically received. The Junior Superintendent, Mrs. R. J. Bruce, Mrs. Herbert P. Andrews and Mildred Holmes arranged this pleasant affair.

Toy Shop Foreman Given Maybasket

Twenty workmen from the Mason Manufacturing Co. gave George H. Robertson a big surprise Monday evening in the form of a Maybasket filled with candy and other good things to eat. Mr. Robertson had been laid up more than a week from an injury received on the elevator at the factory, therefore, was not in condition to give chase. Glenn Andrews, who is practically one of the family, volunteered his services and wouldn't give up until every one in the party had been safely caught. On invitation the merry-makers went in, where the remainder of the evening was given to music and sociability. Mr. and Mrs. Robertson served ice cream and cake and shared the contents of the basket. Glenn received the larger share for his excellent stunt at springing.

Mr. Robertson is foreman of the dipping room in the factory, and his help was greatly appreciated. He will not return to work for the present as recovery is slow owing to the internal nature of the injury.

LOCAL PICK UPS, ETC.

Have you added your mite to the "Liberty Loan?" Do so.

The practical farmer laughs at the antics of his village companions. A man who calculates fine and accurately tells me he thinks he paid \$3.00 for a pair of seal goat boots. He has worn them 18 years and says they are good for a few more years.

Daylight saving plan was unanimously favored as a war measure by delegates of all the N. E. states at a recent convention. Why not set the hands of the clock back 60 minutes? There is sense and a reason in so doing.

Men folks formerly wore long legged cow-hide boots and the fastidious had theirs made of calf skin, but this kind of footwear has passed away. Capt. Whitman now wears in such luxuries.

Have got 25 tons of soft coal in the cellar at a cost of \$262.50. Some years ago an equal number of tons of the same kind of coal cost \$91.25, an increase to me of \$171.25. Wonder how much of this increase goes to the digger in the mine?

A farmer hitched up to his old wagon the other day and brought a load of twenty-five bushels of potatoes to town. He traded his load for a new wagon, sold his old one to a second hand dealer for twenty dollars (more than the potatoes cost him to raise), and left for home overjoyed.

"Don't kill your hens," says a correspondent, "I am glad to pass good advice along. Biddy is paying her way much better than she did when eggs were sold for 12 to 20 cents a dozen as they have been frequently in the past. Now grain is high, but eggs are too high and the latter will offset the former with the added probability that eggs will be much higher in the fall, one dealer predicting that we will see 'eggs a dollar a dozen' before Christmas. So do not sell your hens, and raise all the chickens you can care for. What you do not want to keep can be sold at good prices."

Stop grumbling. Get up two hours earlier in the morning, and begin to do something out of your regular profession. Mind your own business and with all your might let other people's alone. Live within your means. Keep your hens yarded and do not permit them to bother your neighbor. Eat within moderation, and go to bed early. Talk less of your own peculiar gifts and virtues, and more of those of your friends and neighbors. Be cheerful. Fulfill your duties. Pay your debts. Be yourself all you would see in others. Be good, do good, and stop grumbling.

Water took out the black monster and carried me to North Lovell last Monday. The roads were good and the weather fine, the sun shone and the birds and frogs sang by the wayside. Mother, Fay and Dorothy and the boy, Cogswell went along for ballast and to keep me company and out of mischief.

I was told John Freeman was camping on Hobbs' Pond, but I didn't see him or the camp and haven't heard he has caught a fish since the ice left, but am aware he is industriously at it somewhere and will wear 'em out before the season closes. No one has seen a bobber on Hobbs' Pond and didn't even see a bob in the expanse of water and I am of an opinion Mell Sampson did when he told the story to keep Bob Seavey and the Tavern dudes away. Haven't heard of a trout being taken there. Have you?

Round Pond has been harrowed with bait and line and a fish has responded. A woodchuck and three snapping turtles were discovered. The farmer on a rock and the latter on a log sunning themselves. Fred Chandler says he hasn't seen a fish though he has set a line and a hook and didn't even see a bob in the expanse of water and I am of an opinion Mell Sampson did when he told the story to keep Bob Seavey and the Tavern dudes away. Haven't heard of a trout being taken there. Have you?

PREPAREDNESS

Whatever the outcome of the present conflict, it is certain that foodstuffs of all kinds will be in demand and will command a high price. Now is the time to make plans for a larger acreage of all field crops. It is also certain that farm help is to be scarce and very expensive. These things are therefore necessary and vital for the season of 1917.

GOOD FERTILIZERS

FRESH AND RELIABLE SEEDS

IMPROVED FARM MACHINERY

We have now in stock plenty of Bradley's and also Rogers & Hubbard's Fertilizers, of all the best brands, on which we can now make the most favorable prices. Better secure them at once. The materials of which they are composed are going higher every day.

High Grade Field and Garden Seeds are now in store and we are receiving them every day. Some seeds are a little higher than last year, but our Bulk Garden Seeds, Peas and Beans are the best values to be had. Those who buy early will get the best trades.

Everything in Agricultural Machinery we have now in stock at prices far below the present market. Sully and Swivel Plows, Disk and Spring Tooth Harrows, Clark's Cutaway Harrows, Spreaders, Walking and Riding Cultivators, Weeders, Grain Drills, Garden and Hand Drills, Seeders and Hoes and many others. All the above articles that we now have in stock we can sell at prices much lower than we can now buy them.

The comfort and safety of our nation, for the next year, depend on the farmer and on the use that he makes of SEEDS, FERTILIZERS AND IMPLEMENTS.

Daisy Baker's Mother Says

Make Your Money Buy More Food

At \$3.00 a bushel, 2 1/4 bushels of potatoes will cost you \$6.75. A 24 1/2-lb. sack of William Tell Flour, which contains almost exactly the same amount of food value, will cost you only about \$1.40, even at the rate of \$11.00 per barrel.

This comparison, based on figures of the U. S. Department of Agriculture, shows how much more real food value the same money will buy in flour than in potatoes. You don't want to do without potatoes,

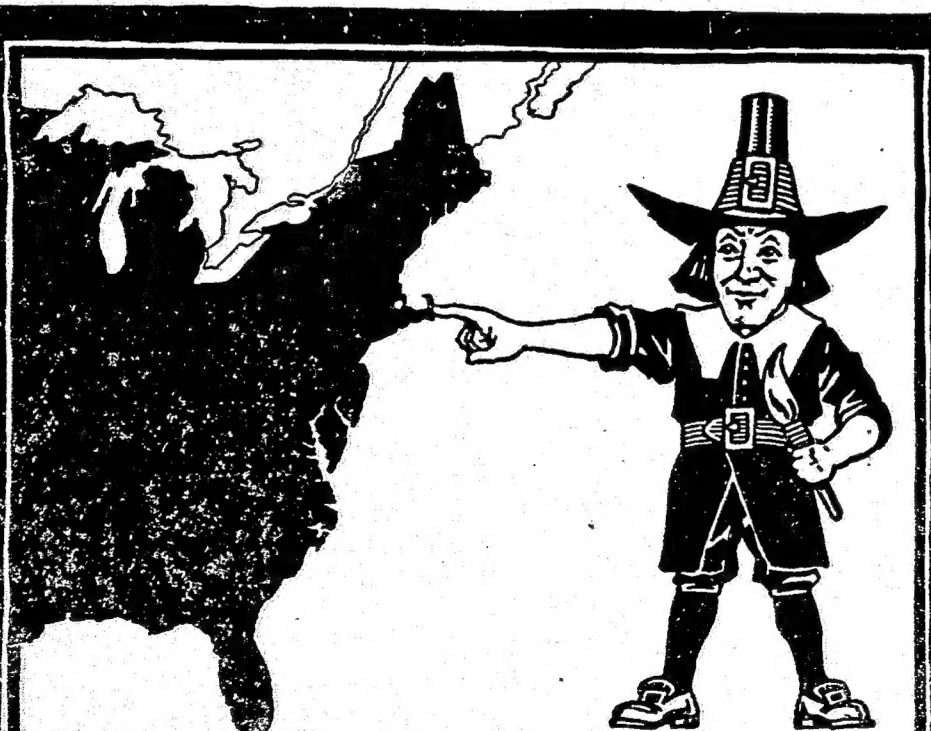

but you can readily see how much further you can make your money go by using more flour.

Bake more at home with William Tell Flour. You can use it, easily and successfully, for every kind of baking. The fact that it is made in Ohio from the wheat that grows in the rich limestone soil of the Miami Valley, gives it a most delicious flavor and wonderful baking qualities. Try it in your own baking and see.

OPPORTUNITY

The Player Piano, so we are told, is the instrument which "put the tune in opportunity"! At all events, it has opened the door to enjoyment to hundreds and thousands who loved music but were denied the privilege of playing. May has been called "Opportunity's Own Month", for in it we may be happy, we may be contented, we may own a Player Piano—if we only will. Opportunity has again brought the piano into popular favor, because it is now possible, with the Player Piano, to really have music at any time you feel like it. All the family are pianists with the Player Piano in the home!

Come in today and see how great an opportunity is offered you.

PIANOS, PLAYER PIANOS AND ORGANS.

PEPSIN NUX IRON and

Sarsaparilla—Fine Course of Medicine.

Physicians and pharmacists have long known the desirability and difficulty of combining iron—a superlative tonic—in a blood-purifying, appetite-giving medicine.

The combination of the iron with Hood's Sarsaparilla has now been secured through the happy thought of prescribing Peptiron Pills in connection with the Sarsaparilla—the latter to be taken before eating, Peptiron Pills after.

In this way the two medicines work harmoniously, giving four-fold results in blood-cleansing and up-building, in very many cases.

Peptiron Pills include pepsin and iron,—note the name, Peptiron Pills,—nutriment, manganese, other tonics, digestives and laxatives.

What better course of medicine can you imagine for this season? You get blood-purifying, appetite-giving, liver-stimulating qualities in Hood's Sarsaparilla and great strength-makers in Peptiron Pills. Buy these medicines today.

You Can't Afford To Pass It Up Is Leonard's Advice

Well Known Salesman Makes Statement Without Qualifications on Tanlac.

"Any one suffering with the same troubles I had can't afford to pass up Tanlac," declared C. A. Leonard, well known salesman of 21 First Avenue, Auburn. "I am recommending Tanlac for the great benefit it has brought me," Mr. Leonard explained.

"I had a bad case of catarrh of the stomach," he continued. "This brought on a general run down condition. I felt all dragged out all the time. I was tired most of the time and had no ambition."

"My food would not digest but instead it soured in my stomach and caused dizzy spells. Tanlac was recommended to me by my sister and I began taking it."

"Now my food agrees with me and is building me up. Dizzy spells are a thing of the past and I feel like living now."

"Statements like this show how Tanlac appeals to the best people everywhere," said the Tanlac Man. "They judge Tanlac fairly and when they are convinced of its merit they do not hesitate to endorse it."

Tanlac now is being specially introduced in Norway at F. P. Stone's drug store. There is a Tanlac agent in every Maine town. Nearby Tanlac agents are South Paris, C. H. Howard; Harrison, Eugene Tenney; Bridgton, F. E. Stevens; Waterville, L. R. Rounds; East Waterville, R. E. Pinkham; West Paris, S. T. White.

What You Get for What You Pay.

In the clothing field, as in every other, there are certain prices at which one's money brings the greatest possible return. To pay less is unwise—you sacrifice quality in some form or other. But sacrifice you do—whether it be in appearance, fit, quality or comfort, lowness of price has cost you desirable quality.

To pay more is foolish—for beyond the true "value price" lies extravagance. What, then, is the value price, who determines it and how? Answer these queries and you have answered the question of "what suit to buy."

Now value is simply a matter of what you get for what you pay—it is determined by the ratio of quality to price. The true "value price" is that at which you get the most for your money, in those qualities that are essential to your permanent clothes satisfaction.

Clothes from the House of KUPPENHEIMER are the kind with perfect fit, style and fabrics. And above all, Guaranteed Satisfaction. Come in and look them over.

Mrs. W. S. Jackson
The sad news of the death of Addie, wife of W. S. Jackson, of whom we spoke last week as having measles following pneumonia, has caused a large amount of regret and sympathy among all acquaintances and friends. She was stricken with a disease of the eyes several years ago which resulted in total blindness, which was a great disappointment to her making her timid, so that she rarely left home.

Her husband sympathized with her in this affliction and never tired of informing her of all that transpired both around home and through the press and so she was as well if not better acquainted with proceedings of the outer world as the best of us who could see to read, also every other comfort and amusement that she enjoyed was furnished her. She was the daughter of the late Benjamin Chandler and Emily Bicknell Lurvey and was born about 64 years ago. Of her relatives, beside her husband who survives, are one brother, John Lurvey, Mrs. G. H. Young and Mrs. L. H. Emery of West Paris, Mrs. W. J. Curtis of South Paris and Mrs. Robert Crockett of Bryant's Pond, a step-daughter, Mrs. Angie Scribner of Paris and a step-son, Edwin E.
